Class of 2019

- SAT Score -- 1320/1600

EXPERIENCE

Phantom Labs(<https://phntm.co>)

Cranford, NJ

Founder and President

September 2017 - current

- Currently developing an iOS app using the Flutter framework and Firebase(<https://carbon.phntm.co>).
- Built and maintained REST API's using a Flask/Gunicorn/Nginx/MongoDB tech stack for use by software clients.
- Partnered with developers to reverse engineer large(50,000 lines), heavily obfuscated, front end JavaScript files.
- Built software clients for high schools used by thousands of students.
- Generated and managed hundreds of thousands of dollars in revenue.
- Managed customer support for over 1105 customers.
- Continuously develop and update all software products, apps and websites.
- Partner with similar companies to improve customer experience.
- Developed OTA update systems with patch management, software security modules, licensing systems and integrations with third party software, like Discord.
- Built, managed and maintained a custom web store with PayPal checkout.

MakeSPP(<https://makespp.org>)**Jersey City, NJ***Organizer and Mentor**April 2018 - May 2019*

- Worked with sponsoring companies on hackathon logistics.
- Networked with fellow student organizers on event logistics.
- Taught 30+ hackathon participants in an hour long Python workshop.
- Assisted hackathon participants with software development.

Saint Peter's Prep**Jersey City, NJ***Chromebook Technician**September 2016 - September 2018*

- Worked with other student employees to manage 1200 Chromebooks.
- Helped manage the repair process of the school's Chromebooks.
- Coordinated with manufacturers and repair centers regarding large batches of devices.
- Manually fixed a select number of Chromebooks by hand including screen repair, motherboard replacement and battery replacement.
- Interacted with other students to help them with WiFi and laptop issues.
- Developed software(chrome extension) for use with the school issued Chromebooks, later installed by policy on all of the school's 1200 Chromebooks.
- Helped develop a mobile iOS app for students' use.

RELEVANT ACTIVITIES & SKILLS**Software Consultant****Cranford, NJ***Consultant**September 2017 - current*
